

VIRTUAL GROUP HOSTS

It's exciting to consider hosting a virtual group for this simulcast! Everyone in your virtual group will completely social distance by staying in their own homes/locations but you will be able to listen to the speakers and worship together, and then visit together during breaks and lunch.

After you purchase your Small Group Host registration from LifeWay, you will have access to great planning ideas. But for now as you consider hosting a virtual group, some things to think through are:

- Who to include in your virtual group—your Life Group, neighbors, relatives, friends, coworkers, including people in other states
- Would you be open to including people you don't know into your virtual group (such as people who contact our Women's Ministry office wanting to participate in a virtual group). If so contact Deree at 256-704-5678 ext. 209 or deree.tarwater@whitesburgbaptist.org
- Will you purchase registrations for everyone and have them reimburse you, or would they purchase their own registration (note that everyone in your group must have a registration)
- What would you do during the lunch break

Be sure to let your guests know these plans.

Again, once you decide to host a small virtual group and purchase your Small Group Host registration, you'll have more planning info to work with.
