

SMALL GROUP HOSTS

It's exciting to consider hosting a small group in your home for this simulcast! After you purchase your Small Group Host registration from LifeWay, you will have access to great planning ideas (including giveaways to purchase). But for now as you consider hosting, some things to think through are:

- Who to include in your small group—your Life Group, neighbors, relatives, friends, coworkers
- Will you purchase registrations for everyone and have them reimburse you, or would they purchase their own registration (note that everyone in your group must have a registration)
- How to maintain State of Alabama social distancing requirements in your home
- What to do for lunch

Be sure to let your guests know these plans.

Again, once you decide to host a small group and purchase your Small Group Host registration, you'll have more planning info to work with.
